**Alignment Gauges**

Made in  
Sheffield, England

## BE4WLA Car 4 Wheel Laser Alignment Gauges

The SharkEye BigEye is the ultimate in Car & LCV laser Wheel Aligners. The concept is taken from our class leading Zubra Truck multi-axe aligner to enable precise interaxle alignment. Or in other-words, making sure the rear wheels are parallel with the fronts.

The BigEye is the only laser aligner on the Global market (until copied) that offers this unique and simple way of completely aligning a vehicles axles. It can also be used as a standard laser 4 wheel laser aligner. Like all SharkEye products the BigEye is handmade in Sheffield, England and won't break the bank.
