C8CCD Computerised Wheel Aligner

The ELEGANTE 8CCD will give you the same results as competitors' systems that are literally double the price.

It's perfect for businesses that want the benefit of easily updateable vehicle databases, electronic and manual. It also gives live readings and technical prompts for those tricky jobs.

Computer wheel alignment is the jump up from laser alignment because it enables you to charge a premium for your alignment service. Simply because you are able to provide the customer with a printout showing the 'before and after' readings. Great for professional workshops and body shops.

Being a SharkEye you know it's a quality product.

PRODUCT SPECIFICATIONS

Comes with:

- Unlimited Remote Training
- Unlimited Phone Support
- 24" Colour Monitor
- 1 x Wireless Keyboard
- 1 x Mouse
- 1 x Wheel Alignment Database
- RTB (Return To Base) Case for the safe and secure transportation
